**First Priority GreenFleet Ltd Acquires Assets of Electric Vehicles International Llc  
Acquisition Adds Electric Vehicles to First Priority's Growing Product Line**

**Flanders, New Jersey (March 8, 2016) --** First Priority GreenFleet Ltd ("GreenFleet"), a total solutions provider for sustainable fleet solutions, has acquired the assets of Electric Vehicles International Llc ("EVI") of Stockton, California.

"Under the GreenFleet banner, we intend to offer our customers a full range of zero and low-emission options that will allow them to select the products that best fit their needs," said Alex N. Cherepakhov, Chief Executive Officer of First Priority GreenFleet. "To enhance our Electric Vehicle offerings, we set our sights on acquiring an industry leader. EVI's 20 years of pioneering efforts have resulted in significant deliveries of over 1,000 vehicles to world class customers, an achievement that will provide us with advanced technologies with over 4 million road time."

First Priority GreenFleet intends to revolutionize the industry with a customer-centric service network that will provide existing and new customers with a "white glove" experience consistent with the legacy of the First Priority brand. "In 2016, we will rapidly mobilize our core expertise to implement a bi-coastal manufacturing and engineering capability with an extensive service network which will set a new standard for the industry," continued Cherepakhov.

First Priority GreenFleet is a member of the First Priority Global Ltd corporate family known worldwide for its leadership in manufacturing, designing and distributing a comprehensive product line of specialty vehicles and trucks for mission-specific purposes, including firefighting, medical, rescue and public safety equipment.

Robert J. Freeman, CEO of First Priority Global, welcomed EVI to the First Priority family of specialty vehicle offerings. "Since 1998, First Priority has followed a methodical growth strategy based on providing our specialty vehicle customers with cutting edge technology, high value products for their capital equipment dollars and laser-focused aftermarket service. We are a solutions-centric company, offering our discerning clients the best our industry has to offer. We believe that the combination of our experience led by our customer-centric focus will be well received by the market."

##

**About First Priority Greenfleet Ltd:** First Priority GreenFleet is a full service provider of sustainable fleet and infrastructure solutions. GreenFleet's product lines include CNG, propane, and electric vehicles. The company designs, manufactures, services, and converts vehicles in addition to providing charging and fueling solutions for zero to ultra-low emissions vehicles.
